LA PLATA MINES.

A Strike in the Sage Hen—A Dead Lion.

H. B. Westover came down from La Plata yesterday and reported that a big strike was made Thursday in the Sage Hen mine, in which his father, brother and himself are interested. A three-foot vein of solid galena has been uncovered. He stated that the shipment of ore from the Red Jacket, in which he is also interested, turned out very well, and they have about twenty tons on the dump now, ready for shipment. Teams went out yesterday, and they will arrive in Ogden Monday morning with the ore. He is not altogether satisfied with the treatment received at the Salt Lake smelters, and the next shipment will be sent to Omaha. All the mines at La Plata that are now being worked show steady improvement, and Mr. Westover believes that next year will show some wonderful results at the new camp.

A Lion Lion.

An immense lion was brought to Ogden yesterday. The lion was a great specimen, and many were heard to remark that it was the largest they had ever seen. The animal was killed near Washburn, on the Park City branch of the Union Pacific, by Mr. J. H. Stalling, of this city. The monster weighed 150 pounds, and was nine feet long from the tip of the nose to the end of the tail. The lion was undoubtedly a male, and had a hot fight with an equal chance, but Mr. Stalling came on to him unawares and killed him with a Winchester through his body. It will be stuffed and mounted.

THE CHAMBER OF COMMERCE.

Excellent Work Being Done—General News of Interest—A Racket.

The chamber of commerce held an interesting session last night. The subject under discussion was that of a railroad from Provo to Park City through Provo canyon. It was thought advisable by Judge Dusenberry, S. S. Jones, Oscar B. Young and others who spoke upon the subject that a committee be appointed to solicit subscriptions for the purpose of having a survey made over this route. After considerable debate, the matter was referred back to a committee, which has formerly been delegated to look into the matter and report at another meeting. This question being continued, it was proposed by Judge Dusenberry that he had been in correspondence with Senator Pennington, who was a treasury contributor to the building of a railroad from Provo to Park City, and that he had been in the city and was very much interested in the project. Mr. Jones concluded with the gentleman, but was at the same time ready to assist in procuring the investment of eastern capital at a reasonable bonus. The chamber will continue its correspondence with the gentleman, and, if possible, secure the enterprise he is seeking to establish.

E. A. Wedgewood called attention to the fact that delegates should be appointed to attend the coming congress to be held in Denver. E. C. Lane and Don R. Coray were appointed. Discussion upon the stamping mill question followed, and the committee was thoroughly instructed as to its work in securing the attention of parties interested in that business.

A Grand Ball.
A grand ball takes place at the Academy hall tonight under the auspices of that institution. There will also be one given at the opera house tonight to Herman Knudsen, and judging from the advance sale of tickets there will be a large attendance.

A Good Cause.
A subscription is being taken up to assist Robert Thomas in repairing his house, which was burned into a dilapidated condition yesterday. Herbert Pyne is soliciting subscriptions.

Provo Wants Buildings.
Owen Smoot called today and stated that Provo was in need of buildings to supply the increasing demand for tenement and business houses. He has long since rented all in the charge and still is building for her for rent. The amount invested in building for her for rent is a business will pay a liberal interest on the start. There is a large population of the R. Y. Academy is one cause of the scarcity of residence accommodations, as students are coming in almost daily from all parts of the territory. A still larger attendance may be expected when the new academy building is completed.

Burglars from Payson.
Two burglars arrived last night in custody of Deputy Marshal Sargeant. They are accused of having broken into the store belonging to Mr. Lemmon at Payson and taking out goods of different kinds and peddling them on the street. They are now in the county jail.

Water Power Secured.
A water power has been taken up on the river northeast of Provo by parties whose names are unknown, but it is rumored that an electric company is preparing for operations in our city.

Police Court.
An interesting case of blighted domestic affection and family troubles will be developed in the police court on Monday. A man by the name of Riley was brought in last evening for assaulting Mrs. Kopp, of the fourth ward. He had been to the lady's house to clear up some old business, but had been so drunk that he had thrown a brick at her head, and she had been forced to look down the muzzle for some time. She afterwards had him arrested for assault. Examination will be held at 10 o'clock Monday. A woman, who will be an interesting witness, being absent.

RAILROAD RAILWAY SERVICE.
A gentleman from California, who dropped off for a day to visit Provo, of which he had considerable state, told me that he had received the impression that Provo had a street railway system, but he had found that in attempting a journey over the city this was a little service, as he had seen nothing but a little dummy and two coal cars on the line during the entire day. He stated that visitors would invariably get the impression that a branch coal road was running through the street and not a street railway line.

LOGAN LACONICS.
Personal and Social Gossip of Interest.

Many Salt Lakeers will no doubt be surprised and pleased to learn that Dr. Charles M. Cannon and Miss Ida M. Daynes, of your city, were yesterday united in the happy bonds of wedlock.

The doctor was seen this morning to have a long and earnest smile on his countenance. All seem to infer that with the consulting influence of his lovely bride he will be able to pull teeth with a much firmer grip.

President Angus M. Cannon, wife, daughter and sister, Charles M. Cannon, Mrs. John J. Daynes and daughter Ida, were yesterday domiciled at Mrs. Horrocks' Temple boarding house.

George W. Driver, pioneer druggist of Ogden, was seen on the streets of Logan yesterday.

Stanley Clawson, of Salt Lake, was yesterday a visitor in the city.

J. G. and E. S. Kimball during the past week have loaned out an immense amount of money to Cache valley farmers.

Eastern capitalists are beginning to look upon Cache valley properties as excellent securities.

Hansen, age twenty-five, and E. L. Hansen, age twenty-five, both of Bear River city; John H. Campbell, of Kayville, age twenty-four, and Harriet E. Sedler, age twenty-three, of Ogden; E. L. Sedler, age twenty-three, and Grace A. Moss, age twenty-five years, Tooele, Chas. McOmber, age twenty-two, and Josephine Hanson, age eighteen, both of Binghamton, Idaho; Peter Larson, age twenty-one, and Isabella Perkins, age eighteen, of Binghamton, Idaho; Dr. Charles M. Cannon, age twenty-two, and Ida M. Daynes, age twenty years, both of Salt Lake city.

ROCKED IN THE CRADLE OF THE DEEP.
Sounds nice, don't it? But O, how fast and furious are the rockers in rough weather! The intestinal warfare begotten in your vitals by the sea's commotion beggars description. What's the proper case under the circumstances? The "Rockers" is the answer. Stomach Bitters. Nothing comparable to it for remedying sea sickness or the kindred nausea from which many delicate land travelers suffer. Dyspepsia, cramps, constipation and biliousness also are invariably and promptly remedied by the Bitters. Exposure in rough weather is often primary, however, be it by the time of use of the Bitters, which diffuses an agreeable warmth through the system, and promotes an active circulation of the blood in the extremities when benumbed and chilled. Malaria, kidney trouble, rheumatism and debility are remedied by the Bitters.

FOR LETTER HEADS.
Bill heads, statements, ball tickets and all kinds of job work sent to THE HERALD. Quick work and reasonable prices assured.

GOOD LOOKS.
Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive you have a bilious look, if your stomach be disordered, you have a dyspeptic look, and if your kidneys be affected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alterative and tonic, acts directly on these vital organs. Cures pimples, blotches, boils, and gives a good complexion. Sold at A. C. Smith's drug store, 35c. per bottle.

MINING NEWS.

An Invitation to Salt Lake Minstrels—Personal Movements.

R. M. Jones came up from Salt Lake yesterday. Mr. C. Hirschman returned from the east yesterday morning, where he has been to take his daughter to boarding school.

Mr. Jones had one solitary drunk up before him yesterday morning. Everything is running smoothly now at the new Morgan building works.

The Marcella refinery is getting along very nicely now, everything being in first-class shape. The shaft that is being sunk in the Crescent mine is reported as being about twenty-four feet from the surface.

The mines are very quiet now, on account of the near approach of the winter, though the majority of them will continue through the winter months, doing development work.

The O. N. O. is still in the ring, so to speak, and as long as the weather continues on in a favorable manner, the mine will continue the shipment of concentrates. It will soon be possible for them to ship, but operations will be carried on during the winter, notwithstanding.

The near approach of the holidays brings to mind the fact that the old and popular myth, "Santa Claus," is coming, and it is again rumored that the park was taking some action in regard to the Christmas tree for the poor children of the place. The cost is small, but up to a few cents, devote the proceeds for the tree and with an attractive programme, the philanthropist as well as the pleasure-seeking people will attend to help swell the proceeds.

The people of Salt Lake city are, of course, discussing the all-important debut of the "Gilded Girl" (if that is the name) who is coming to the city. It is rumored that the society people of your place have given their minstrel troupe, but Park City is not to be outdone, so for that reason one of the popular men of Park City is now negotiating with a troupe to appear here. Park City has never yet failed to appreciate good things, and if that troupe comes up to expectation here, it may be assured they will receive a royal welcome.

Mr. A. E. Payne returned to Salt Lake city yesterday afternoon. The sampling mill shipped yesterday: Mayflower ore.....114,300 lbs. Mayflower concentrates.....18,800 lbs. Mayflower concentrates.....64,700 lbs. Everything in the Ontario is about the same; they have plenty of ore and will keep them busy for a few years to come.

A few parties who had witnessed the performance of Prof. Seymour at the Casino, at Co's drug store on Thursday last, pronounced it a wonderful performance, and that the professor compares very favorably with Bishop.
